

Woody's® Pail Pal™ Installations Instructions

Pail Pal™ is made of heavy gauge steel for strength and powder coated for a durable finish. Our design allows you to remove the Pail Pal™ with the pull of a pin. Contact the ATV/UTV manufacturer or dealer if you have questions about the capability of your vehicle to safely handle the Pail Pal™.

You must read and understand these instructions in their entirety before installing or using the Pail Pal™.

Items Included:

Pail Pal - 2 pieces (main component (A) & receiver post (B))
2 each - 3/8" bolts, 3/8" washers, 3/8" nyloc flanged nuts
1/2" Clevis pin, Safety Clip

Items Needed (not included):

Receiver Hitch
9/16" Wrench and socket

Size	Part Numbers
1 1/4"	PPL-1250
2"	PPL-2000

The Pail Pal™ cannot be used with your ATV/UTV unless you have the proper receiver installed.

1. If not already equipped, install a 1 1/4" or a 2" receiver on the ATV/UTV following the installation instructions provided by the Receiver Hitch manufacturer and the recommendations of the ATV/UTV manufacturer.
2. Assemble Pail Pal™ by bolting the receiver post (with plate on bottom) to the main component. Slide washers on bolts then insert bolts in holes of main component then through receiver post. Place nyloc flanges nuts on bolts and tighten bolts using 9/16" wrench and socket. After each use, retighten bolts if necessary.
3. Install the Pail Pal™ to your ATV/UTV by sliding Pail Pal™ receiver tube on the ATV/UTV receiver hitch. The Clevis pin must slide through the receiver hitch and the ATV receiver hitch and the Pail Pal™ receiver tube hole at the same time to secure the Pail Pal™ properly.
4. Place safety clip through the clevis pin.

IMPORTANT - Do not exceed more than half of the ATV/UTV payload recommended by the ATV/UTV manufacturer. The maximum payload can be found in the ATV/UTV owner's manual or by contacting the ATV/UTV dealer.

Small loads are recommended until you are familiar with the capabilities of the Pail Pal™. Additional weight in the rear of the ATV/UTV may cause the front end of the ATV/UTV to be lighter. Care must be taken when traveling up and down hills due to this shift in weight. Depending on the weight of the items you place in the Pail Pal™, the ATV's steering may be affected. Use caution operating the ATV/UTV when the Pail Pal™ with cargo is attached.

⚠ WARNINGS

- Operate with extreme caution on slopes, steep grades, rough terrain, loading and unloading from a trailer because of the reduced clearance.
- Due to reduced ground clearance, remove the Pail Pal™ before trail riding.
- Periodically check for wear and structure integrity.
- The Pail Pal™ is not intended to carry humans or animals; continued exposure to exhaust fumes could result in death.
- Do not allow exhaust fumes to blow directly on items, may cause fire or damage load.
- Never use the Pail Pal™ for towing.
- The Pail Pal™ is designed to use two round buckets (not included), do not build a platform on the Pail Pal™.
- Use caution when backing up as the buckets/Pail Pal™ are not visible below the ATV/UTV rear bed or rack.
- The Pail Pal™ is for off-road use only. Do not use the Pail Pal™ on public/highway roadways.

Limited Warranty

International Engineering & Manufacturing, Inc. warrants each product manufactured by it to be free from defects in material and workmanship under use for the purpose for which it is intended. The Company shall not be liable for damage or delays caused by defective materials or workmanship; is limited to the repair or replacement at its factory of defective article or part thereof, which may be returned to the factory, transportation charges, prepaid within one (1) year after delivery to the original purchaser. Proof of purchase is also required. The Company shall be the sole judge of the existence of any defect in the articles so returned. No claims for charges incurred in the removal, disassembly or reinstallation of such article shall be allowed.

This warranty shall not cover any article which has been misused or neglected or damaged by accident or any article which has been altered outside the Company's factory. This Warranty does not cover replacement labor or shipping.

The Company shall, in no event be liable for consequential damage or contingent liability arising out of any total or partial failure to function of any article manufactured by it or of any equipment on or in which it is used. Failure of a user to give notice to claim as to defect claimed under the provisions of the Warranty within one (1) year after delivery to original use, such claim shall constitute a waiver by consumer of all claims with respect to goods and equipment.

The above warranty is in lieu of all other warranties, expressed or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. In no event will the company be liable for consequential damages whether or not it has notice of the possibility of any such damages.

Follow the Woody's Manufacturer Warranty Returns directions to return any product from International Eng. & Mfg., Inc.

Woody's® Manufacturer Warranty Returns

Contact our customer service department at woodys@wiem.com, Attention: CUSTOMER SERVICE for a Return Authorization Number. Woody's will not accept any returns without this number. The Return Authorization Number must be visible on the outside of the box. The product must be inspected by a Woody's technician to determine if the product is defective due to material, quality or workmanship before a final warranty determination is made. Proof of purchase is required. Please include warranty registration number. All returns to the manufacturer are for exchange only.
